Chris Davis
DotNet Developer | C#, ASP.NET & SQL Server Expert

Professional Summary

DotNet Developer with over 4 years of experience in building scalable and efficient software applications using the .NET framework. Skilled in C#, ASP.NET, and SQL Server, with expertise in developing web applications and database management systems. Proficient in Agile development methodologies, ensuring timely and high-quality software delivery.

Core Competencies

- .NET Development (C#, ASP.NET)
- Web Development (MVC, Web API)
- Database Management (SQL Server)
- Agile Development Methodologies

Professional Experience

DotNet Developer
XYZ Technologies | 2019–Present

- Developed and maintained web applications using ASP.NET MVC and Web API, improving user experience and system performance.
- Worked on backend development using C# and integrated SQL Server for data storage and retrieval.
- Collaborated in Agile teams to design, develop, and test applications, ensuring rapid and successful product iterations.
- Optimized SQL queries and database performance, reducing data retrieval times by 25%.

Junior Software Engineer
PQR Startups | 2017–2019

- Assisted in the development of .NET applications, focusing on backend logic and database integration.
- Contributed to designing RESTful web services using ASP.NET Web API, facilitating smooth client-server communication.
- Assisted in the implementation of Agile practices, participating in sprints and daily stand-ups to ensure project milestones were met.

Education

Bachelor of Science in Computer Science
STU University | 2015–2019

Certifications

- **Microsoft Certified Professional Developer (MCPD) – [Year of Certification]**
- **ASP.NET Certification – [Year of Certification]**

Languages

- **English (Fluent)**
- **German (Conversational)**
